

**Position:** Delaware River Watershed Fellow  
**Time Period:** June 3rd to August 16<sup>th</sup> 2019  
**Hours:** 40 hours/week for 12 weeks  
**Salary:** \$12/hour (\$5,760 total)  
**Age:** Must be at least 18 years old by the June 3<sup>rd</sup> start date

The Watershed Institute is hiring a **Watershed Fellow** to help the organization build awareness and support for protecting the Delaware River Watershed and help us reach and engage underrepresented communities in the greater-Trenton region.

The Watershed Institute is committed to building a culturally diverse organization and strongly encourages applications from people of color, particularly residents of Trenton and neighboring communities. The Watershed Institute is a member of the Alliance for Watershed Education (AWE), a network of 23 environmental education centers that is focused on creating a larger and more inclusive constituency of people engaged to protect the Delaware River Watershed.

**Position Summary:** The Watershed Fellow will help The Watershed Institute and AWE teach area residents about the Delaware River, threats to its environmental health, and steps that people can take to help protect the river. Among other tasks, the Fellow will help our scientists monitor water quality in the Assunpink Creek and other streams, and help educate others about our findings. The Fellow will also create an educational exhibit or poster for display in The Watershed Institute's education center, at community fairs and events, and with informal interactions with users of area trails. Previous experience or a background in environmental science is not required.

**Specific Duties:**

- Participate in a 3-day Watershed Stewardship Training program at Pocono Environmental Education Center (June 12-14.) <http://www.peec.org/> (transportation will be provided)
- Learn about watersheds and how to describe their importance to others.
- Support various outreach and education programs and events, including the Watershed Butterfly Festival, Watershed Academy for High School Students, community fairs & festivals.
- Complete a capstone education/outreach project to be presented at the Watershed Fellowship Summit in Philadelphia in August.
- Participate in regular online conference calls and occasional meetings with the other Watershed Fellows at environmental centers in Philadelphia, Camden, and other cities.
- Learn from and help Watershed Institute scientists with water sampling and testing.
- Occasional evening & weekend hours are necessary.

**Position Location:** The fellow will be based at the Watershed Center at [31 Titus Mill Rd, Pennington, NJ 08534](#) and spend time in the field along the Assunpink Creek in Trenton and upstream communities, and Jacob's Creek in Ewing and Hopewell Township, NJ.

**How to apply:** Please email a brief letter expressing your interest in this position and describing any experience and/or education courses in environmental sciences and/or community organizing to: Kevin Walsh, Deputy Director, The Watershed Institute at [kwalsh@thewatershed.org](mailto:kwalsh@thewatershed.org)
