Cape Atlantic Conservation District Job Announcement Level I Resource Conservationist

The Cape Atlantic Conservation District is searching to hire for the position of Level I Resource Conservationist. A description and responsibilities of the job follows.

Under the direction of the District Manager and Assistant Manager, and in accordance with the policies and programs of the Cape Atlantic Conservation District (CACD), carries out the technical and administrative duties of the Soil Erosion and Sediment Control Act and other District programs.

Duties and Responsibilities:

Assists in the implementation of the New Jersey Soil Erosion and Sediment Control Act, Chapter 251, P.L. 1975 and as amended.

Reviews soil erosion and sediment control plans to check for compliance to the Standards for Soil Erosion and Sediment Control in NJ.

Performs on-site construction inspections to assure that soil erosion and sediment control measures have been installed in accordance with the approved certified soil erosion and sediment control plan.

Provide assistance in preparing information for newsletters, publications, tours, seminars, training and conservation education programs.

Prepares clear, informative, and technically accurate reports and articles regarding CACD programs.

Maintains the required files and records of the Cape Atlantic Conservation District.

Performs related duties as directed by the Assistant Manager or Manager.

Experience:

No experience required for Level I Resource Conservationist.

Requirements:

Valid drivers license.

Graduate of an accredited college with a Bachelor Degree in Agriculture, Forestry, Natural Sciences, Resource Management, Environmental Studies or related areas of study.

Knowledge and Abilities:

General knowledge of and familiarity with basic concepts of soil erosion and sediment control and soil and water conservation.

Ability to work effectively with builders, landowners, engineers, landscapers, government agencies, and others in the field.

Familiarity with conservation principles.

Familiarity with basic computer operations and proficiency with programs including: Word, Access, and Excel. Practical application of GIS.

Ability to keep current with literature and other source material pertaining to soil erosion and sediment control.

Regularly stand and sit for extended periods of time, mobility to conduct site inspections, and capability to operate equipment including a vehicle are required. Job duties may also include vigorous outdoor activity.

Compensation Detail:

Enrollment into State Pension system

Enrollment into State Health benefits program

Paid vacation time, sick time and holidays

Wage: Based on ability and experience.

Please send cover letter and resume to capeatlanticscd@capeatlantic.org by February 16th, 2024.
